uvex rubiflex ESD NB35A//60954

Description

These extremely light and flexible chemical protection gloves are the perfect choice for guaranteed exceptional wearer comfort and high electric discharge capacity is required in addition to chemical protection. The uvex rubiflex ESD fulfils the requirements for EN 16350 and has forward resistance of $< 10^8$ Ohm. This product can therefore be used in areas where explosions are a risk as well as ESD areas.

Characteristics

- anti-static in accordance with EN 16350
- anti-static safety gloves
- Ergonomic fit
- good mechanical properties
- good resistance to many chemicals
- High water vapour absorption due to the cotton lining
- Extremely high flexibility
- lightweight

Applications

- Automotive industry
- Chemical industry
- ESD areas
- paint shop
