

M-Safe 4182 mobile lifeline

- Mobile horizontal lifeline with 30 mm polyester strap
- Branched ends for direct attachment to an object, without the need to use an anchoring sling or direct attachment to an adapted attachment point
- Steel ratchets to tension the system after setting the required length
- Supplied with two steel carabiner snap hooks
- Permanently provided with a bag for storing excess strap. The bag will keep the system inside after use
- Adjustable from 2 to 20 metres in length
- Suitable for two simultaneous users
- Maximum resistance > 25 kN
- This mobile lifeline complies with the following standards: EN 795

Art.No.: 8.84.182.00
